Farmville: This is yet another example of a game that doesn't really offer any value at all but still manages to make a ton of money. It's a very bizarre concept which involves fun because you think you're going to become rich by buying fake farm products and selling them or you can become popular by posting pictures of your fake farm products and getting attention from people who want similar things. I mean, if this is what people want then it's really no different than Roblox except with Farmville you're dealing with real money.

Here is where things get a little confusing but stick with me for a second and I'll link things together for you. When you get Robux gems and tokens from winning games, there is no value in the items you receive. There is no way to spend those items on anything in this game because they don't have any value. You can't sell them, you can't trade them for anything, they don't have in game money attached to them, etcetera.

There are many ways to earn Robux in Roblox such as: – You can get free Robux if you play certain games in which you can win free Robux or prizes that have a high value later on. The more popular the game is, the more people playing it means the game has a higher chance of giving rewards. – Another way to get free Robux is by completing surveys or writing a review. – Playing Roblox games and participating in certain challenges can earn you robux, as well. – You can also earn Robux by performing automated tasks such as watching ads or watching videos.

My friend told me to download roblox and I did it but the only problem is that there are so many things to download 20gb but overall it is so cool I love it! Rated 5 out of 5 by Anonymous from Fun Fun Fun Great game for all ages. It shows you the basics on building your character and some scripting as well. Not to mention, the multi-player features that ROBLOX provides.

Roblox has been criticized by parents and others for its age-inappropriate nature, and for encouraging bullying. Some players have reported being bullied while in the game, due to language or other factors. Many of these players have been reported to take their complaints to Roblox's customer service team, only to be ignored or told that it was the victim's fault. It is also reported that the staff are biased towards certain users due to friendship rather than any sort of immorality on their parts.
